

Cucharas Sanitation and Water District

Position: *Waste Water and Water Treatment Plant Operator*

Location: *Cucharas Sanitation and Water District, Cuchara Colorado*

Salary and Benefits: *Commensurate with experience*

Job Description/Requirements: The Operator provides for the safe operation of water and wastewater facilities in compliance with Federal, State and Local requirements for the operation of water treatment, distribution, storage facilities and wastewater collection. Responsible for the operations, routine servicing and care of a wide variety of specialized equipment, including pumps, motors, chemical preparation, control of equipment and monitoring equipment. Maintains records of operations, completes and submits routine and special reports as assigned. Performs related field and laboratory tests, which are necessary to monitor and control the facilities, and makes necessary adjustments to equipment, process and chemical feeders. Operates and assists in repairs to water/wastewater systems and plants, responds to emergency callouts. Experience in the water and wastewater treatment industry is preferred. Conditions to be met prior to hiring an applicant may include Pre-employment Drug Screening and Background Check.

Duties: Perform routine preventive maintenance such as operating adjustments, cleaning, routine maintenance of plant grounds and buildings, snow removal, load and unload chemicals at the plant, maintain plant records such as operating logs, chemical feeds, temperature, levels and pressures on various process systems and associated equipment located throughout the plant. Monitor flows, pressures, chemical feeds, levels and water quality indicators. Collects water/wastewater samples and performs laboratory tests. Record all operating data on daily work sheets from laboratory analyses and flow metering equipment. Conduct safety inspections and follow safety rules and procedures. Applicant must be available for overtime and on call as well as minimal weekend and holiday coverage. Work in all weather conditions. Must be computer proficient and have strong mathematical skills. Applicant is expected to do what it takes to keep operations at CS & WD running smoothly.

How to apply: An application form is available at the Cucharas Sanitation and Water District and on the district website, www.cuchara.org. A completed application form with resume should be submitted to Cucharas Sanitation & Water District, 16925 Highway 12, Cuchara, CO 81055 or by Email to admin@cuchara.org
